Historic Resources and Displacement Analysis

469 Stevenson Street Project
Case No. 2017—014833ENV
Tuesday, May 24, 2022; 11:00 a.m. to 12:00 p.m.
Location: Zoom video conference – https://us02web.zoom.us/j/89701910697
Meeting ID: 897 0191 0697

Invited Participants

Name	Affiliation
Justin Greving	SF Planning
Allison Vanderslice	SF Planning
Jenny Delumo	SF Planning
Shelley Caltagirone	SF Planning
Stacy Kozakavich	Page & Turnbull
David Woo	SoMa Pilipinas
Mario de Mira	SoMa Pilipinas
Raquel R. Redondiez	SoMa Pilipinas
Anna Radonich	Stantec

Agenda

1. Historic Resources Analysis
   - Overview of HRE Part II scope of analysis (Planning)
   - Preliminary results (Page & Turnbull)
     Questions
     - Would you recommend any changes to the potential historic districts, including proposed boundaries? If so, what other areas would you include?
     - Would you be interested in pursuing landmark protections for these districts?
   - Next steps
2. Displacement Analysis (Planning)
   - Overview of Displacement Scope of Analysis
   - Approach to cultural displacement analysis
   - Data to inform the analysis
     Questions
     - What conditions could indicate whether a cultural asset/non-residential site is vulnerable to displacement?
     - If a cultural asset has been displaced in the past have you observed that resulting in additional displacement pressure on residents?
     - Are there particular terms or definitions that you use when describing displacement?

  - Do your organizations collect data related to displacement that they would like to share beyond the cultural assets inventory? For example, data related to age of Filipino population, the number of Filipino-language proficient services, or income data related to the Filipino population in SoMa?
  - Would you be open to providing a description of what the cultural assets inventory contains? For example, any organization or site related to Pilipina culture, organizations of a certain age or type, etc.
  - Do you think that the approach to cultural displacement analysis is adequate or valid? If not, what changes would they recommend in the approach?
- Next Steps
