Hi all:

Apologies for the radio silence on this PPA. As you know, there's been much back-and-forth with the Project Sponsor.

Per my 3/19/18 email, this PPA is "live" and we are looking to finalize the letter by 5/15/18.

As Chris pointed out, in the midst of the shuffling of project scopes with the Project Sponsor, I never sent the PPA template letter. Attached, please find the word version as well as the latest plan set.

Chris/Justin: I noticed the EEA #s for both the base and proposed projects are slightly different than the #s shown on the land use matrix table of the current (attached) plan set. Please take note.

Please let me know if you have any issues that would preclude you from completing your respective sections on time.

Luiz: this was reviewed at UDAT on 3/21/18; Maia should have notes.

I'm having issues with plannet portal, so please just save the document locally, work on your respective section, and then email when finished; I'll merge the sections.

Thanks!
