Hey ya'll:

I just sent an calendar invite for a quick (internal) check-in for next week.

I jotted down the following notes from this week's meeting with PS:

- 1) David Blackwell asked if there are any examples from other jurisdictions that require a "fully" Code-compliant base for SDB project review (e.g. Berkeley)?
- 2) Is there an template for the Regulatory Agreement between PS and City for SBD projects utilizing 206.6? If so, can we share this with PS?
- 3) Checking with EP to make sure no wind study is required for the base project (Rick is looking into this).

Best,
